

Saviour Machine

"Force Of The Entity"

Visit "[Force Of The Entity](#)" on MotoLyrics.com

Listen to the thunder of the forces we reveal
Listen to the voices of the children we conceal
Fortress of the universe is tearing down the wall
Breaking all dimensions through the essence of the
call
Out in the distance of all time and space
As the force of the entity reigns
Vision that transcends upon the spirit of the knight
Lifts him over darkness, then surrounds him in the light
Opening the Saviour through the heart of his machine
Brings him to the covenant that takes him through the
dream
Out in the distance of all time and space
As the force of the entity reigns
The force of the entity reigns on me
Reigns on the sacrilege heart of the beast
Reign on me
Reign on the children that walk in the path of the free
Come before the sacred heart and sacrifice the mind
Come before the silent invitation to the signs
Let us enter frightened ones, suppress the need to hide
Let us cross the river's streams unto the other side
Out in the distance of all time and space
As the force of the entity reigns
Reigns on
Reigns on the children that walk in the path of the free
