"Yesterday's Gone"

Visit "[Yesterday's Gone](#)" on MotoLyrics.com

It's your oldest trick and your cheapest one
Turn the world to blank and the game is done
I hope and I pray that the rainbow comes
You'll change your mind don't shoot the gun

You can sail on seven seas
Lend your heart out to who you please
Wherever you travel, whatever you see
Don't forget the love that you got from me

Goodnight moon, goodbye sun
What goes with you is all my love
I hope your best is yet to come
Let's close the book, what's done is done
'Cause yesterday's gone

There you go now you're off your leash
Go rid your heart of its great disease
Wherever you travel, whatever you see
Don't forget the love that you got from me

Goodnight moon, goodbye sun
What goes with you is all my love
I hope your best is yet to come
Let's close the book, what's done is done
'Cause yesterday's gone

Yesterday's gone
Yesterday's gone
Yesterday's gone
Yesterday's gone
