Came to the city, left my happy home

Came to the city, left my happy home

But I didn't do right, learned my lessons wrong

Street Corner Talking, wonder what I'm gonna do

Street Corner Talking, wonder what I'm gonna do

If you can't get a job, council will take of you

It's the same what a shame, no matter where you go

It's the same what a shame, no matter where you go

People wonder what to do, too much time for me and  
you

Street Corner Talking, wonder what I'm gonna do

Street Corner Talking, wonder what I'm gonna do

If you can't get a job, council will take of you
