Here we are again, having the same conversation
We're gonna have it til we get it right
I don't care if you're tired
So am I, so am I
We're gonna work this out tonight

Coz we're chasing circles around
Yeah we're chasing circles around
And around again

I saw the look in your eye
Like someone had turned, turned out the lights
Goodnight to all we held in our hands
I guess this is falling with nowhere to land

And we're chasing circles around
Wearing patterns into the ground
Still we're chasing circles around
Again

And if practice makes perfect
And I think you're worth it
I dare you to walk away
If I take it all back would it stop me from aching?
Everything now's either broken or breaking

We're chasing circles around
Wearing patterns into the ground
Slipped and fell for you, fell for you
I fell for you on the way down
And we're chasing circles,
Chasing circles
We're chasing circles around.
