"Where Does Your Body Begin"

The future's leaking through a shut lead door
In the ruins of a city under the forest floor.
Your naked body's buried in a vacant field
What does your body feel now?
The air is black and has no oxygen
The bodies in the river float beneath the sun
Transparent skin it shines a light from deep within
Where does your body begin?
The stars are hidden by a mirrored sky
And darkness disappears behind reflected light
Perception is a distance in a closed-in space
How will your body escape?
The crowd is feeling you inside your head.
Your imagination's canceled by it's opposite
And every possibility's been proved untrue
Now is your body you?
