You don't say that you love him  
But it shows in every word  
When he played his favourite music  
Was the best you'd ever heard  
And you tell me that he couldn't watch  
The violence cut by men  
When all is quiet throughout the land  
I hope you meet again

Chorus

I hope you'll meet again  
I hope you'll meet again  
I hope you'll meet again  
I hope you'll meet again

His feelings were as deep for you  
And maybe even more  
Though you probably didn't show it  
You knew his heart was sure  
Though he left without a single word  
It's better in the end  
There are no words to say goodbye  
I hope you meet again

Chorus:

I never even met him  
But I know we'd be a pair  
We'd have sat in any pub in town  
And had a good time there  
But there's something left between us  
Stands in both our ways  
When all these things are sorted out  
I hope we'll meet some day

Chorus:

You tell me of his interests  
How he loved the sound of trains  
Whenever you hear that whistle  
It's calling out his name  
All the lonely years you suffered  
Remembering back when

The days seemed so much longer  
I hope you meet again

Chorus:
