"Let Go"

All I give is all I get
If nothing remains there's no regret

Cold stone face don't look at me
I have shared too much time with you

I'm relieved if I let you go (I let you go)
I'm relieved if I won't let you grow over me

In my memory we lie there so entwined
I won't forget you but I can't let you grow over me

I wanna grow like the spume on a wave
And I wanna feel like a ghost unleashed
I don't seek a life of misery
I just need a bracing kiss
I wanna grow, let me grow
