"Shine On"

Visit "[Shine On](#)" on MotoLyrics.com

Shine on
Through the dark days of our lives
Every night
Your velvet skin forever mine

I'm down at your grave
Just one more time
I need your smell
Your velvet skin forever mine
I bring you home
Where the sun shall never shine

I open your coffin, fall on my knees
Seems like you're gone
Where have you been ?
My little girl

Someone raped and stole my little bride
I need her now, her touch,
I need her sweat like every night
We need to go on, you and me, shine on

We need to go on
Through the dark days of our lives
Every night
Your velvet skin forever mine
Shine on little bride
Through the dark days
We need no light
