I keep rollin' it over and over  
All the things I want to say  
I'll never quit, give up, or forget you  
My love will stand in the way

'Cause I don't believe in goodbye  
And I believe it takes time  
To build something strong, it won't take long  
For you to believe in me, just look in my eyes  
I don't believe in goodbye

Where love goes, we must follow  
And let our hearts lead the way  
We'll be the last of the true believers  
First in love and last to stay

'Cause I don't believe in goodbye  
And I believe it takes time  
To build something strong, it won't take long  
For you to believe in me, just look in my eyes  
I don't believe in goodbye

I don't believe in goodbye  
And I believe it takes time  
To build something strong  
It won't take long for you to believe in me  
Just look in my eyes

I don't believe in goodbye  
I don't believe in goodbye  
I don't believe in goodbye  
I don't believe in goodbye
