I've been lettin' all my friends take my mind off all the troubles
They've all been glad to help me out for a while
But your memory steps in and I'm turnin' back the pages
Lookin' through old photographs and tryin' to find your smile

Old photographs bring back sweet memories
Lookin' at the way I held you then
Old photographs keep you here with me
Till I find a way to get back in the picture again

Somethings never change as the years go on between us
Like all my love for you still feels the same
All those yesterdays that I wanted to remember
Are sittin' here beside me where these old pictures lay

Old photographs bring back sweet memories
Lookin' at the way I held you then
Old photographs keep you here with me
Till I find a way to get back in the picture again
Till I find a way to get back in the picture again
