"Got A Feelin"

Visit "[Got A Feelin](#)" on MotoLyrics.com

Everyone's a little restless, restless
Wanna go forget all about this mess
I got a feelin that tomorrow's gonna bring a brighter
day
We're looking for a way that we can make a difference
One that won't leave us sitting on our fences
I got a feeling that it's coming on along the way

Everybody needs a little love
Love and understanding
Everybody needs a little love
Love and understanding
Got a feelin that a little love is on the way

Everyone can come and join the celebration
All you got to bring is your imagination
I got a feelin we could make it go a long long way
Help in carrying the weight and we'll be stronger
If you can take it, we can last a little longer
I got a feeling that's it's coming on along the way
