

Between Hopes &dreams; "Hey"

Visit "[Hey](#)" on MotoLyrics.com

Hey, I've got a question,
How do you sleep at night, watch me dead?
Hey, another question,
How could you dream so well after last night?

But I know, I'll find a way to rescue me
And I know, I won't fall again like the last time

Hey, I've got a question,
How can you smile knowing I am dead?
Hey, another question,
How do you fill tonight the empty space?

But I know, I'll find a way to rescue me
And I know, I won't fall again like the last time

So pick up the pieces, the sun won't shine again.
And I'm sorry, no one ever told me how to live.
And no one explained how to feel right when I am
dead.
So sorry, I'm going now! I won't fall again!

Hey, I've got a question,
How do you sleep at night watch me dead?
And hey, my last question,
Do you think you'll feel alright when I stop singin'?
