Contained
(Elton Boussen)

I wonder what you're doing now
I fantasize just what you're thinking of
feels like half of me
isn't with me at this time

troubles start flowing as you touch it
but I have restarted a new way
following that, that what inspires me
how I feel day from day

yeah you you do fit in my life
yeah you got contained in this life

troubles start flowing as you touch it
but I have restarted a new way
following that, that what inspires me
crawl up inside of me, please be a part of me

Yeah you do fit in my life
Yeah you got contained in this life

Sacred belief in the truth; I'm not guilty
Until it is proven I'm a sick fuck

Not guilty, sick fuck

Yeah, you do fit in my life
Yeah you got contained in this life
