in time I will learn  
to speak without speech

you must obey the same  
you must obey the slave

in time I'll obtain it  
in time I will gain

just know I'm hurt  
I spoke with a smile

don't ever judge the same  
don't ever try to fake

in time I'll obtain it  
in time I will gain  
better try it  
this a lesson about life

It's true time will fade  
disappearing like snow for the sun  
this a lesson you learn about life  
this time is different whom speaks about truth
