The scientist purported that there ain't no purpose
and the theologian told me that it's all been designed
and I'm trying to maintain objectivity
The world won't illuminate what really matters
and I'm an imperfect modal moral meaning extractor
processing the complexity
Born of the Earth (Are we blind?)
We weren't given a choice (There's no way)
What about free will? (What we have)
Do we have a voice? (Is shattered faith)
See them run in place (Here and now)
in the human rat race (No reward)
So much dead weight (No debate) to our disgrace

Just directionless wandering
Eternal life, eternal truth, eternal secrets
Isolated hopes and hypotheses just

We weren't given a choice (There's no way)
What about free will? (What we have)
Do we have a voice? (Is shattered faith)
See them run in place (Here and now)
in the human rat race (No reward)
So much dead weight (No debate) to our disgrace

easily navigate
I had a dream, light and carefree
But now there's doubt and gravity
But I won't run in place (Are we blind?) in the human rat

race (There's no way)
I can set the pace (What we have) and accept my fate
(Is shattered fai
