My heart is crying for a stranger's name  
Tonight, I need to play a brand new game  
I know I'll find you, just look around you

I feel tonight that all my dreams come true  
You'll never give up thinking for me too  
You are the light in this dark night

While the night's passing by  
I'm gonna make you fly  
I want you to stay by my side (yeah!)

Nothing's gonna stop me now tonight  
Nothing's gonna stop me now  
I'll fly for you, I'm dreaming of you (yeah, c'mon!)

Nothing's gonna stop me now tonight  
Nothing's gonna stop me now  
I'll fly for you, I'm dreaming always of you

Nothing, nothing's gonna stop me now!
