Don't think
Just do
The things you do to me

Don't think
Just do
Girl I'm going crazy

I know you li-li-like
To do it every time
Baby you're putting on a show

Don't think
Just do
Whoa whoa whoa

Said where we headed now
Baby you gettin wild
And I'm runnin around to figure out
How much imma miss out

And imma sucker for
All of the little things
And you can make me figure out how deep I'm in
You're catchin me

I don't do bullshit
You know I came to win
And baby you're makin your mark in my book
Of everything

I will remember you
But for now let's make the best of our time
And see if you're feelin true
I really do

I know you're feelin it
The back of my car
Or my kitchen table of all places
To go far

Girl I need you alone
I know you think it to
Because you cannot stop arousin me
You really do

Let's make a day of it
And head into the night
And never have a bother of anyone
Or any fight

I wanna take a bite
I know it'll feel right
Don't even think about it
We'll do it all night

Don't think
Just do
The things you do to me

Don't think
Just do
Girl I'm going crazy

I know you li-li-like
To do it every time
Baby you're putting on a show

Don't think
Just do
Whoa whoa whoa

Don't think
And it'll happen
When my dreams turn into reality
Some might call it a sin
I won't fall in

I promise I won't fall into
The same exact you done before
And I won't stop until you give me what I'm waiting for

Cuz I can't wait much longer
And ya teasin me like never before
And I can't take it
I'm freakin out
Babe you got me wantin more

The power held by you
You got a spell on me
And I cannot resist your games
And it makes me wanna stop

If this is real life
Is it even possible
And plausible to do this to a man
A man who wants it full

You say I'm caught up in the moment
And you're right, I am
I would not rather be anywhere else
Could give a damn

Now she on top of me
Givin it to me fast
If she gets any louder
Imma have to turn it to the max

She throws her hands up
As she gets down
Said I'm livin the dream
And I'm livin in it now

Don't think
Just do
The things you do to me

Don't think
Just do
Girl I'm going crazy

I know you li-li-like
To do it every time
Baby you're putting on a show

Don't think
Just do
Whoa whoa whoa

The way we movin now
I'm goin crazy
And I wanna make this
Last forever and ever
Just show me how

Girl how you do that
Girl how you do this
It's somethin that I will make sure
To never ever miss

I need it oh so much
And I just wanna touch ya
Over and over and over again

Baby you know how I

Do the things I wanna do
And let you rock the attitude
And gratitude
And I am satisfied
With you

Don't think
Just do
The things you do to me

Don't think
Just do
Girl I'm going crazy

I know you li-li-like
To do it every time
Baby you're putting on a show

Don't think
Just do
Whoa whoa whoa
Whoa whoa whoa
Whoa whoa whoa
Whoa whoa whoa

Don't think
Just do
Whoa whoa whoa
