### "Colour Us"

Visit "[Colour Us](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Let's start tonight  
By telling me who you came to see  
But if anybody asks me now  
What's happened here  
Your secret's safe with me  
But we can't turn back  
(We're falling again)  
Colour us with stars and candle light  
We can only sing this song tonight  
If tomorrow never comes for us  
The sun won't have to rise  
You'll make this right  
By telling me we've got chemistry  
But if anybody asks me now  
What's happened here  
Your secret's safe with me  
But we can't turn back  
(We're falling again)  
Colour us with stars and candle light  
We can only sing this song tonight  
If tomorrow never comes for us  
We'll let the fire burn  
Burn  
We won't let them stop us  
Colour us with stars and candle light  
We can only sing this song tonight  
If tomorrow never comes for us  
Then the stars above could colour us  
And we could have it all
