All night
That's right
I might try to put up a fight
Just because it ended up like this
It doesn't mean that we can't just kiss
Start it up slow
Build up to a hiss
And now that your gone it's you I miss
Miss lady
I know it's making you crazy
24OPEN, all night, amazing

What ever you need
What ever you need
What ever you need

So, well, Lets see
Why is it now your calling me
Hmm, Gee, I wonder
If you could come by and drag me under
I don't mind that's why I'm here
Back it up
Back it up in gear

Even if it all feels insincere
Well 10 A/C deadly atmosphere

And it's hard to say why
And it's hard to say why
And it's hard to say why
And it's hard to say why
Feed me Feed me

I know what your all about
The way you ease when you smile
At the side of your mouth
I know what your all about
The way you ease when you smile
At the side of your mouth
I know what your all about
The way you ease when you smile

At the side of your mouth

All night

All night
