[Intro:]

Stay far away,
Need to learn to, need learn to
Forget the past and move on, is it killing you inside?
Name with no face's social suicide
Say that you changed, yourself remains the same
I won the battle and it's putting you through hell
I won the battle and it's putting you right through hell

[Verse 1:]

You can't stick to just one story
Cause your best laid plans ended in agony
And I regret not expressing every word I meant, and
apologizing
Your confessing to me as a victim of your lies was
torturing
Degrating words shattered every piece of me
Your closeted kiss is still haunting
But you, blackened flag, are just her history

[Chorus:]

Renegades scar forever
That forever is destroying me (Your throne ends today!
)
Here comes another shot of jealousy
Well maybe you should stop and examine your mind
Discover why we want you out of our lives
Can you not see, with friends like you, Hepburn doesn't
need an enemy

[Verse 2:]

"It's not me, it's you" is the real optimistic saying
Soap opera of society
You tried and cried? You tried and cried?
Yeah right you took it back before you regret those
words we could use
Just bite your tounge
Mind erase him Audrey
Cut him out of your life, just click delete already
Or are you keeping something from everyone else?

[Chorus:]
Renegades scar forever

That forever is destroying me (Your throne ends today!
)
Here comes another shot of jealousy
Well maybe you should stop and examine your mind
Discover why we want you out of our lives (Your throne
ends today!)
Can you not see, with friends like you, Hepburn doesn't
need an enemy

[Bridge:]
(Oh, oh, oh, oh)
Agree to disagree
More like mutual rivalry
The past-she's known you longer; but this ending's
caused by today
Agree to disagree
More like mutual rivalry
The past-she's known you longer; but this ending's
caused by today

[Chorus:]
Renegades scar forever
That forever is destroying me (Your throne ends today!
)
Here comes another shot of jealousy
Well maybe you should stop and examine your mind
Discover why we want you out of our lives (Your throne
ends today!)
Can you not see, with friends like you, Hepburn doesn't
need an enemy

(You're not trust worth)
Renegades scar forever
(You're not trust-believed in)
That forever is destroying me
(You're not the one. You're not trustworthy) (ooh)
Here comes another shot of jealousy
(You're not trust worth)
Well maybe you should stop and examine your mind
(You're not trust-believed in)
Discover why we want you out of our lives
(You're not the one)
Can you not see, with friends like you
(You're not trustworthy)
Hepburn doesn't need an enemy.
