Baby girl, I'm a blur  
I spoiled, stunted, sickened her.  
God and Death are none of my concern  
I'm no philosopher.  
Deep in your heart, stitched the key  
And only one can set me free  
from the beast where I dwell  
and let the saints all burn in hell.

So take what you want from me, (I'm on my way) hey  
And take all I've got from me, (I'm on my way) hey  
You're with me all the time  
The drugs can have my mind, love  
You own the rest you'll find  
And you're with me all the time

On the roof, burning black,  
The city smoked from the attack  
But on the roof, we love the beast to death  
The sweat and whiskey breath

So take what you want from me, (I'm on my way) hey  
And take all I've got from me, (I'm on my way) hey  
You're with me all the time  
The drugs can have my mind, love  
You own the rest you'll find  
And you're with me all the time  
We'll fall right down  
We'll get back up again  
that's how we'd be  
you and me  
I would not crowd,  
(no I will not crowd)  
I would not smother you  
(I will not smother you)  
I'd let you breathe, over me  
(haha, here we go now)  
hey hey hey hey

We're on a sinking ship, but we're escaping it  
We're on a sinking ship, we're escaping it  
We're on a sinking ship, but we're escaping it

We're on a sinking ship, we're escaping it

You're with me all the time

You're with me all the time

With me all the time

You're with me all the time

No matter where I go or where my mind

I'll always stumble home and pray I'll find

You with your flame-throw eyes and jilted smile

So you can soothe my wounds and drain my bile

[x2]

You're with me all the time.
