Dressed in rags and drenched in sweat  
Spinning something that the world will soon forget  
Handkerchief and girlfriend jeans,  
You're not privy to the splendid things I've seen  
Kill that DJ, clear the floor  
Have a seizure in the leisure of the board  
Damn the mob mentality  
If you're sick of it then sing it with me

It's my life and I'm living without you  
It's my life and I'm living without you  
It's my life and I'm living without you  
It's my song, it was never about you at all

The social climb our suck-up slave  
Had a moment and you dragged it out for days  
Here's a conflict that you crave,  
I'm the phoenix in the death of the fleeting things

It's my life and I'm living without you  
It's my life and I'm living without you  
It's my life and I'm living without you  
It's my song, it was never about you at all

You're everything I wanted, you're everything I need at  
all  
Everything I wanted, I've gotta let you go  
Is it everything you wanted?  
Everything you need at all?  
Everything you wanted, I've gotta let you go

Now you seem to find your place amongst the sheep  
(I've gotta let you go)  
Now you seem to find your place away from me  
(I've gotta let you go)

It's my life and I'm living without you  
It's my life and I'm living without you  
It's my life and I'm living without you  
It's my song, it was never about you at all  
It's my life and I'm living without you

It's my life and I'm living without you  
It's my life and I'm living without you  
It's my song, it was never about you at all
