i've been waiting for years for this to end
but now you're gone and i don't know where i am
put my head in the books i burned for you
they'll revive me, that's what they'll do

i'll silence you with sex and drugs and education
murder you in mind and heart for all you put me
through
this is my last song for you
i will not be your number two

and i ate poison growth with my new friends
and it was awkward to watch the colors bend
as i laid on the ground and drooled and sighed
i thought of you love, and how hard i tried

to silence you with sex and drugs and education
murder you in mind and heart for all you put me
through
this is my last song for you
i will not be your number two

silence you with sex and drugs and education
murder you in mind and heart for all you put me
through
this is my last song for you
this is my last song for you
this is my last song for you
baby i won't be your number two
