

## Midnight Funeral

### "Eternal Soul"

Visit "[Eternal Soul](#)" on [MotoLyrics.com](https://MotoLyrics.com)

When evil flame will come from the sky  
When darkness will come from the abyss  
The king OF the six legions  
Will come from the kingdom  
The eternal soul  
Will ascend to destroy the time  
Remove the light from the sky

Bring the eternal darkness  
Bring me there where the light never exist  
Bring me there where the darkness never die  
Bring me there into the magic circle

When evil flame will come from the sky  
When darkness will come from the abyss  
The king OF the six legions  
Will come from the kingdom  
The eternal soul  
Remove the light from the sky

Bring the eternal darkness  
Bring me there where the light never exist  
Bring me there where the darkness never die  
Bring me there into the magic circle

I know the light is crying tears of blood  
Praying for the darkness does not come  
Believing that someone is listening  
Believing that you will not come
