Walking through the cemetery
alone and desolate
I can feel the smell of death
my eyes see a circle funeral
all are dressed in black
and carry on her neck
The symbol of evil

Burial midnight - had to be someone with evil
midnight burial - probably adored the master of
darkness

I can hear voices in the distance
false prayers of people
Who want to stop this ritual
but your spirit has been the calling of Satan

Burial midnight - had to be someone with evil
midnight burial - probably adored the master of
darkness
