Standing here on the edge of Time
Gazing back and forth
No need to fit any line
Passing decades are tangled streams
Wandering through my mind
All tangible it seems

I close my eyes, when this world disappears
Flooded with hate and pain, blinded by fears
Forgotten dreams of a golden past
Perished but the shadows will last
Forever

On the edge of time, final revenge will be mine
Hours and days, shapes and ways
Nothing will stay the same

On the edge of time, final revenge will be mine
Hours and days, shapes and ways
Nothing will stay the same
Nothing will stay

Nothing will stay the same
Nothing will last

Closer to the edge I'm losing ground
Shattered hopes, redemption can't be found
The fade of everything has just begun
Celebrate their lives under a dying sun

I close my eyes, where the ashes remain
Let them suffer again and again
I'm feeling anger deep in my heart
A flash of light tears us apart
Forever

On the edge of time, final revenge will be mine
Hours and days, shapes and ways
Nothing will stay the same
Nothing will stay
Nothing will stay the same

Nothing will last
