Goodnight, can't wait till I wake,
I'm cursed beyond this time
Well, I've been waiting for it
It's been a long time

The time is now
You made the choice
No I can't blame you,
I just can't, but I want to
And if it's sink or swim or who I am?
I'll say I'm honest then I'll just disregard you
I've never been this thankful for what I've done
This is doing what is right
And the cost became the price
If you want it, I'll pay it all again

[2x]
Goodnight, can't wait till I wake,
I'm cursed beyond this time
Well, I've been waiting for it
It's been a long time

The worst is yet to come!
Dig, there's blood in the sand
You are the one in the mud
With the dirt on your hands
These five words will bring you down
The gun in your hand the gun in your hand

[2x]
Shake baby
Or get off of the floor
Get off of the floor!

[2x]
Goodnight, can't wait till I wake,
I'm cursed beyond this time
Well, I've been waiting for it
It's been a long time
