We lay a force around us,
Forfeit all you have.
They wage a war upon us,
You will feel the wrath.

Yeah to anyone who cares
I'm out the save the world (OHHH)
No better time than now. so bring it home.

We might be right we might be wrong,
We carry on and on,
Tell everybody, tell everyone.

Now! I'm breaking in the cold,
I hold the sun! Tell every one.
Now! I thought you should know,
I hold the sun, tell everyone

You come to see the sea of faces.
You wage a war GOD FOR GOD, MAN TO MAN.
I can't see where I can draw the line,
GOD FOR GOD MAN TO MAN, draw the line.
I wish I could say that every day, you've been heard.

I hold... I hold the... sun...
