

## Midnight To Twelve

### "How Bad"

Visit "[How Bad](#)" on [MotoLyrics.com](https://MotoLyrics.com)

So what makes you think that I don't see  
You're not doing what you're told  
So what makes you think that I'm gonna believe  
Every lie you've ever told  
So there you go, letting it fall away

How bad do you want it  
How, better go and get it

So what makes you think that I don't see  
Every time you did not show  
So what makes you think that I'm gonna believe  
Every lie you've ever told  
So there you go, letting it fall away

How bad do you want it  
How, better go and get it

(Solo)

How bad do you want it  
How, better go and get it

How bad do you want it  
How bad do you want it
