I haven't got a clue if you're the one...
Flowers are beautiful but they tend to die
So I will give you more than flowers
I'll give you my time
All the time I spent listening
I know what your favorite flowers are
You like Gerber daisies with a white ribbon attached
I know it amazes you
No I aint like those other guys
And trust hope that aint a line
Now hope you should be the one to save
After all you're my "wonderwall"
My armor got amoral on it darling nikki
Your prince is here to save you...
Bring me flowers
And talk for hours
And ooh I like you
And ooh I like how you make me feel
Kiss my face
Your warm embrace
And ooh I like you
And ooh I like how you make me feel
You make me better,
Like neon light flashing in Vegas
Those flashing lights they came from everywhere
The way they hit her can help but to stare
Got lost for minute got caught up in her...
When arrive I will awake a wake to such a beautiful faith
I got young love on my arm, a fresh wife beater on
(Drowning in your love) that I am
Now hope you should be the one to save
After all you're my "wonderwall"
My armor has amoral on it darling nikki
Your prince is here to save you...
Bring me flowers
And talk for hours
And ooh I like you
And ooh I like how you make me feel
Kiss my face
Your warm embrace
And ooh I like you

And ooh I like how you make me feel
Your heart cares for nothing in return
And I'm just taking
Taking you in
Caught up in your smile
I'm happy as a child
But I'm still drowning
Drowning in your love
Bring me flowers
And talk for hours
And ooh I like you
And ooh I like how you make me feel
Kiss my face
Your warm embrace
And ooh I like you
And ooh I like how you make me feel
Bring me flowers
And talk for hours
And ooh I like you
And ooh I like how you make me feel
Close my eyes
And dream for miles
And ooh I like you
And ooh I like how you make me feel
