

Midnite "Bless"

Visit "[Bless](#)" on MotoLyrics.com

Them coulda bless, them coulda bless
Them coulda bless, them coulda bless

Well now them curse, when them coulda bless
Ay, have I ina one big financial stress
Them curse, when them coulda bless
Ay, have I ina one big financial stress

Ghetto pickney and so ityfully present, bountiful of
earth,
Mada earth was well equipt to feed all her children
But the heard is hoarding everything just fe
themselves
Because them curse, when them coulda bless
Them ave man ina one big financial stress
Them curse, when them coulda bless
Them coulda bless, bless, bless
When them coulda bless, when them could a bless,
bless

Mi a tell dem say
No good can come of billionaires and people without a
cent
Man a try fe scrape outa bills and outa house rent
Permanently pan the sand and ina tent
And that's just how the story dun went
But the sun still bless all her moment
The sun still a bless all her moment

Yeah blacka coppa raysen
Oh yeah, because them curse when them coulda bless
And now them ave man ina one big financial time
Them curse, when them coulda bless
them ave man ina one big financial, ahey
When them coulda bless
Curse when them coulda bless
When them coulda bless
Curse when them coulda bless

Them say show them no mercy when he is weak
He is the strong

Them tell peer hero story
Ave how them conquer wid all them beat down and
prolong
Yeah ahey, because them curse when them coulda
bless
And now have man ina one big financial stress
Them curse when them coulda bless
Them have man ina one big financial stress
Them, when them coulda bless, coulda bless
When them coulda bless
When them coulda bless

Them all think a say is a pop culture legend
It is the winning interest ina the niceness and pureness
Bruk down envy and separation fortress
Just as all the needs them need to be met
Yeah needs to be addressed
Aye bruk out of them illusionary progress
Ah yeah oh yeah hey
Them curse when them coulda bless
Them ave man ina one big financial
Them curse when them could a bless
When them coulda bless, bless
Jah, when them coulda bless, bless
When them coulda bless
