Whoa yeah woo
To help give true vision
To the mother of our nation

Mother of our nation

Jah guide I dealings woo
Jah guide I dealings yeah
Jah guide I dealings in the daily sun
Jah guide I dealings in the daily sun
Come bun until them sunny side up over done

Them delight in breaking solar spirit down
Neva beauty and purity when you first come down
Smiles that created life into one
Depend upon the back whey ya go neva turn

To the womb from which to come
The womb from which to come
The womb from which to come
The vessel of woman how could we none
Black woman brought forth everyone
Black woman she brought forth everyone

Work hard every day
To see them again today
Laugh and make it look one-way
Laugh and make it look one-way
Them there whe deh back dey
Drugs stepping stone work place
No issue no go home from dey
No issue no go home from dey

The womb from which to come
The womb from which to come
The vessel of woman how could we none
And then she brought forth everyone
