"A Way Out"

What if I stay one more day?
Only to see you walk away
Leaving this man for everything else

I'm trying to open up tonight
I need to know why we fight
Am I the wall we both climb?

If you walk away without a warning
If you find a way out
A way out
A way out

Cigarette's lit, and so am I
In a room full of smoke and hidden goodbyes
With walls caving in on you and I
Why should I stay one more day?

If you walk away without a warning
If you find a way out
A way out
A way out
