We Almost Made It  
Solitude  
In a world of loneliness  
Thoughtful thoughts  
In a world, that's moving on  
We're leaving home for good  
We're leaving home for good

Day by day  
In a thousand different ways  
Got no time  
To realize, what's going on  
We're leaving home for good  
We're leaving home for good

(Chorus)  
In the end we almost made it  
At the point of no return

Scream...  
Scream for help  
When nobody is around  
Who is to blame?  
Us? For being partly sane  
We're leaving home for good  
We're leaving home for good

(Chorus)  
In the end we almost made it  
At the point of no return

Butterflies  
Dressed in misty autumn blue  
Found their way  
To a bright, and sunny day  
We're coming home for good  
We're coming home for good
