Oo babe, what can I say to you
Change what you're feelin' inside?
Oo babe, I've got to get close to you
Please don't cast me aside
You know I hate to see you lookin' so sad
I can't stand to watch this good love go bad
Let's stop and think about the good times that we had
We can start it all (start it all) all over again
And we can have it all (have it all) just a one more time
We can start it all (start it all) all over again, oo, oo, oo,
oo
Oo babe, don't look that way at me
You know you're breakin' my heart
Oo babe, I'm as sorry as I can be
Don't let this tear us apart
Now let's forget about the tears that we cried
It's gone, there ain't nothin' to hide
Come on baby, why can't we give it one more try?
We can start it all (start it all) all over again
And we can have it all (have it all) just a one more time
We can start it all (start it all) all over again, oo, oo, oo,
oo
Just think about it babe, oo, oo, oo, oo
Just think about it babe
Oo baby, I acted like a fool
You just trust me baby and I'll make it up to you
I see your smile's returnin'
I know you understand
Come on baby
All you got to do is take my hand
I love you baby, we're gonna start it all again
We'll have it down like nothin' before, ah
One more time, we can start it all (start it all) all over
again
We can have it all (have it all) yeah ev'rything
We can start it all (start it all) all over again
We can have it all (have it all) yeah everything
