little girl have your fun
take it easy
just don't jump the gun
you don't have to try so hard
you will always be my number one
you got me in your bed of roses
please don't change the boy
'cause havin' you around heaven knows
is somethin' I enjoy

leave well enough alone baby
don't get too serious no
leave well enough alone child
don't go and change on us
life won't be the same for us
better leave it alone

I know you've got ideas
monograms and sets of hers and his
I hate to have to break the spell
but let me tell you how it really is
you know I feel at home with you just the way we are
but go ahead and dream those dreams
but just don't carry them too far

leave well enough alone baby
don't get too serious no
leave well neough alone child
don't go and change on us
life won't be the same for us
better leave it alone

you know it feels so good with you just the way we are
but if you wanna dream those dreams baby
don't carry them too far
leave well enough alone child
I love you just the way we are
leave well enough alone baby
let's not change a thing baby
let's not change a thing babe
leave it alone

please, please, please, please leave it
leave it alone baby
