What goes around comes around  
What goes up must come down  
What goes around comes around  
What goes up must come down  
Must come down

Katy perry kissed a chick or the chick kissed her  
Chris brown hit a chick when a chick hit first  
Now he ain't meant to do it get a sense of humor  
He got mad and they control his temper stupid  
They say michael touched the kids well if he did there it  
is  
History has a way of repeating our kids get passed  
around like hand me down sneakers  
They say Jeezy fucked Gucci and if he did he probably  
feel stupid  
At one point he ain't even seen a boy now we see a boy  
performing at the BET awards  
Life is kind of funny how it twist and turns  
If you fuck me you gon' get your turn  
Beef with me I ain't even bet about it call me the bitch  
niggers can't get around me

What gets in comes out gets up comes down  
That's what makes the world go round  
That's what makes the world go round  
That's what makes the world go round  
What gets in comes out gets up comes down  
That's what makes the world go round  
That's what makes the world go round  
That's what makes the world go round

They say game fucked 50 but now game ain't shit beef  
They say j moved shifty that's why j's so filthy you can  
say what you say  
He was loyal and... how loyal was...  
But there is two sides of every story don't call me  
Call... you know you were a phony when you cried on  
the phone  
Lied to your homies and now I ain't here to condone  
these rumors I am just trying to show what I know t

the...

Cause don't dice me up if you can't take it better leave  
that ass naked

What gets in comes out gets up comes down  
That's what makes the world go round  
That's what makes the world go round  
That's what makes the world go round  
What gets in comes out gets up comes down  
That's what makes the world go round  
That's what makes the world go round  
That's what makes the world go round

What goes around comes around  
What goes up must come down  
What goes around comes around  
What goes up must come down  
Must come down

You know it is real when I say you should get to know  
for real  
They should put it on my will when I am dead I am a  
thinker  
I am I'll but I am still on my way like a hamster running  
on a wheel in my head  
I can see my insanity for the sake of humanity dealing  
with vanity  
While I am dealing... like... permanent pill  
Is like a lamborghini turning it's wheel...  
That mean I am hot I got rap out... anti social anti papal  
man I am so damn  
That I can't fly coach... I am so pro... that's how I like to  
put it  
What goes up must come down  
What goes in must come out

What gets in comes out gets up comes down  
That's what makes the world go round  
That's what makes the world go round  
That's what makes the world go round  
What gets in comes out gets up comes down  
That's what makes the world go round  
That's what makes the world go round  
That's what makes the world go round
