sounds that cut off short

they make up rhythms.

and pixelated many pixel food.

well I thought I found the way to lay the joystick down

the girl with eyes the color of pea soup.

and there's a flame, there's a spark,

but she beat my high score.

so say goodbye, there's the door.

I can't see you anymore.

and there's a flame, there's a spark,

but she beat my high score.

so say goodbye, there's the door.

I can't see you anymore.

no, not (\_\_\_?) away

besides, she lost her coat just yesterday

the dry cleaners must've mixed the tickets up

and so she got some guy's (\_\_\_?) three-piece suit  
instead.

and there's a flame, there's a spark,

but she beat my high score.

so say goodbye, there's the door.

I can't see you anymore.
