

Say Hi To Your Mom

"Hallie And Henry"

Visit "[Hallie And Henry](#)" on MotoLyrics.com

Hallie says that she wants to stay up till the sun
Let's make friends with the cool kids just this once
She says and doesn't blink at all

Let's go nen-ego id, don capes like we're kids
But that Henry, he's such a hater
And he wishes she'd just stay bored as him

But now Hallie's gonna pop unless that Henry learns to
stop
With all his double dirty downer looking on
It's like he's living in a rock or like he's mopping up the
floor
With his head while the mop watches on

Let's go faster than light,
Let's go back to the start
Become what we hate with the flood lights on

Go summon the dead and build fires in the yard
But what looks good on paper,
Looks good on paper
But this one looks like the other hair-brained schemes
of yours

But now Hallie's gonna pop unless that Henry learns to
stop
With all his double dirty downer looking on
It's like he's living in a rock or like he's mopping up the
floor
With his head while the mop watches on

But now Hallie's gonna pop unless that Henry learns to
stop
With all his double dirty downer looking on
It's like he's living in a rock or like he's mopping up the
floor
With his head while the mop watches on
