(Verse 1)

Let us skyscrape together
It's better up here
Don't you have no fear
Through the storm through any weather
I'm your perfect guy
Girl I'm gonna dry your eyes
Me and you forever
It's so possible
If you just let go
Girl my strength can't be measured
It's my pleasure to save your day

(Bridge)

I know there's nobody else
So I'm gonna help you by myself
When all hope is missing to love you's my mission
I'll protect you I'm the man
Girl it's clear it's evident
That you need someone to rescue you

(Chorus)

Lets start over with love
When they tear your city down
I'll rebuild all your trust
I will jump for you
Cos I'll be your hero, hero, hero,
I'll be your hero, hero, hero,

(Verse 2)

Hold you down baby
That's what I'm gonna do
I'll take care of you
I'll climb mountains high I'm ready
We can both take flight
Gotta keep the love alive
Look it's a bird, it's a plane, falling down, no you aint
You'll never see the ground because I'm around you
baby
Take you up, out of town, build a house, in the clouds
You can count on me, please believe cos I...

(Bridge)

I know there's nobody else
So I'm gonna help you by myself

When all hope is missing to love you's my mission
I'll protect you I'm the man
Girl it's clear it's evident
That you need someone to rescue you
(Chorus)
Lets start over with love
When they tear your city down
I'll rebuild all your trust
I will jump for you
Cos I'll be your hero, hero, hero,
I'll be your hero, hero, hero,
(Middle 8)
I'll be your solider your sword and your shield
I'll fight every battle you hero is here (x2)
(Chorus x2)
Lets start over with love
When they tear your city down
I'll rebuild all your trust
I will jump for you
Cos I'll be your hero, hero, hero,
I'll be your hero, hero, hero,
Lets start over with love
When they tear your city down
I'll rebuild all your trust
I will jump for you
Cos I'll be your hero, hero, hero,
I'll be your hero, hero, hero,
