Beat after beat

hums through tropical heat.

Echoes repeat

plaintive beat after beat

drenching rain falls

but as long as love calls

all the world can't keep us apart.

With those drums in my heart.

Throbbing on

throbbing on.

Refr.

Jungle Drums

through the black ob the night

send your message to me

(bring love's message to me).

Guiding me

through the tropic maze

with their weird melody.

(Chanting their melody)

You are mine

is the message they cry

I am thine

long as stars light the sky.

Jungle Drums

at your call I fly

to the pagan I love

to the pagan I love.
