Don't you know I tried to make it right with you
Well I should go after everything that we've been
through
I had the time of my life
'till the day that my luck took a dive
But if only the strong will survive
Won't you stay with me
If it's time to let you go
Let me know tomorrow
Don't wanna hear I told you so
Don't you know we shouldn't keep the score
Of all the dirty tricks we've pulled before
Don't you know I couldn't anymore
Don't you I want you here to stay
Don't you know it matters anyway
Anyhow... Don't you know
I should have known I was chasing rainbows all the time
Well maybe so but I always had your heart in mind
You were the light of my life
'till that day that my luck took a dive
But if only the strong will survive
Won't you stay with me stay with me
If it's time to let you go
Let me know tomorrow
I don't wanna hear I told you so
Don't you know we shouldn't keep the score
Of all the dirty tricks we've pulled before
Don't you know I couldn't anymore
Don't you know I want you here to stay
Don't you know it matters anyway
Anyhow... Don't you know
