Called the doctor on the telephone  
Said I got the fever, it won't leave me alone  
Called the doctor on the telephone  
Said I got the fever, it won't leave me alone

Said doctor, is there something you can do?  
He said not so, son, I got it too  
Said doctor, is there something you can do?  
He said not so, son, I got it too

I think I got it, I think I got it  
I think I got it, I got pussy fever

Said you better get your ass on out to L.A.  
Try to find yourself something better there  
Spent the night in that hotel  
Tried to get me something to make me feel good, feel  
good

But I think I got it, I think I got it  
(Gimme some)  
I think I got it, I got pussy fever  
(Late at night, early in the morning)

Pass me the Jagre, put it in my cup  
Slam it jam it down and do I want another what?  
Uma Thurman, Thurman got the butt now  
Jimmy smoked the crack but I don't give a fuck

Hocus-pocus, I can't even focus  
Your girl's on my dick like a locust

Pass me the Jagre, put it in my cup  
Slam it, jam it down and do I want another what?  
Uma Thurman got the butt now  
Jimmy smoked the crack but I don't give a fuck

Coulda had a V8, instead I had forty  
When your girl's on my cock, she called ya shorty

Pass me the Jagre, put it in my cup  
Slam it, jam it down and do I want another what?

Pass me the Jagre, put it in my cup  
I got something, gotta call my doctor

Read about the people from my childhood  
Tried to put a bag in the sack  
But Ma wouldn't take no crap  
I said, boy, better get your ass on back, gimme some  
of that

I said if you wanna party  
Well, you know where the party's at  
The party's where the people  
Are partying and bringing it back

I said if you wanna party  
Well, you know where the party's at  
I said if you wanna party  
Well, you know where the party's at

I said if you wanna party  
Well, you know where the party's at  
The party's where the people  
Are partying and bringing it back

I said if you wanna party  
Well, you know where the party's at  
I said if you wanna party  
Well, you know where the party's at

I think I got it, I think I got it  
I think I got it, I know I got it  
Pussy fever
