I took a trip in my mind I turned water into wine in the
sunshine
I took a trip far away from the troubles of this maniac
day
Oh I breathed in the air and I swear I didn't care about
tomorrow
It was good it was better than good it's where I wanted
to stay

And if you know what I'm saying I'm saying I just don't
know a damn thing
And I think that one day that that's what I will truly
believe
Till then I go alone like I do everyday in my own special
way
Taking this life that I lead way to seriously
