We come correct
We come to rock we came to get down
We came to get busy move your butts around
Gaddamit we can 'cause we're strickly business
When we in the house people saying who is this
You wanna hit were lightning fast
We're in your face we're built to last
We're in your town we are the one
We come correct a thousand suns
We'll show you how we'll make you move
Without a doubt get in the groove
Were built for speed a million strong
We fill the need don't get me wrong
We can't stop & we won't slow down
We're gonna rock this place fuck up this town
We come correct & that's a fact
I said we're here to damage to be exact
We come correct we can't be sunk
So fuck what you heard fuck what you thunk
We come correct

We come correct
We come correct because there is no other
That can rock a motherfucker like this here brother
We come correct and now we're hear
Can't hit the brake no need to steer
We come correct get in the groove
We grab your butt and make it move
We come correct and when we're done
We come correct we are the sun
No need to ask no need to fight
We got the goods we got the shyte
We got the hits that hit your block and make you say

Tell em what I'm taking bout "strictly business"
We come correct we come prepared
We don't give a fuck so you better be scared
We come correct and that's a fact
We come correct and that's that
We come correct

We come correct
Take a bite bite off a big chunk
You'll be eating for days you big punk
We come correct we hit the party like a bomb
You'll be calling up the folks saying help me mom
Damn it fuck it put it in your bucket
Better hug a nut and just suck it what?
We came to dance we came to mingle
Sorry bout your girlfriend she said she was single
We come correct we came to rock
We come to fuck so fuck the small talk
We come correct we came to rule
We came to take it back to the old school
We came to party rock your body
So all the ladies in the house can get naughty
Grooveline, slowpoke, cocopuff, snizz
Spread, razor and the sauce strickly taking care of biz
We come correct we know you'll cum
We come correct we are the sun
