"Rumours Of War"

By nineteen eighty nine
He'd been waiting for
Six years to be

Official citizen
Of a fucked up land
Some call a dream

Rumors of war
Is changing politics
Rumors of war
Made a space for deals

Trade your flag for this - load your new beliefs
Die to join that list - your beloved dream
Trade your flag for this - kill their enemies

Enjoy your uniform

A contract has been signed
And paperwork was fast
He's taken in

In nineteen ninety one
He was sent to fight
The middle east

Disfruta tu mision

Now is the time
Use your gun
