Wake up in this house alone  
Never did that before... from you and all  
I hate to think the feeling's gone  
Oh, maybe we're just like the sun up that night  
At some point it has to go down!  
Or maybe we're just like the snow in the winter  
Cause surely we'll hit the ground!

Chorus:

Still I, don't know if I ever, ever felt this way before  
Don't know if I ever... my heart above the floor  
Don't know if I ever come to love you anymore  
I didn't think that I ever had to lay down without you!  
Ever, ever, ever  
I mean ever, ever  
Ever, ever, ever  
I mean ever, ever  
I didn't wanna lay down without you

Wishing a new day will come,  
You will cause my heart to break  
Shattered pieces everywhere  
Hey,... it just won't go away  
Maybe we're juts like the sun up that night  
At some point it has to go down!  
Or maybe we're just like the snow in the winter time  
Cause surely we'll hit the ground!

Chorus: (x2)

Still I, don't know if I ever, ever felt this way before  
Don't know if I ever... my heart above the floor  
Don't know if I ever come to love you anymore  
I didn't think that I ever had to lay down without you!  
Ever, ever, ever  
I mean ever, ever  
Ever, ever, ever  
I mean ever, ever  
I didn't wanna lay down without you!
