Welcome back where you belong
There are people that you know
And they like to see you...

Don't be sceared and don't forgot
That your home is were you belong
Many families and friends like to
Hear you morre than less you know.

Travel around around the world
To find a place that you will be
Loved. Every story has an end it is
Happy or it is bad, don't know when
Your story will be end but I know
That it will be great...

Welcome back where you belong,
Your home is here you know, just
Come back to relax cos I see you
Tired...
