Hallelujah can tell this
Devin's got some shit wouldn't give a fuck if you dissed
Because shit to each's own and each owns voice
You stealin', killin' or chillin' whateva your choice

Smoke some weed, smoke ya pipe fuck it, life if how
you live it
I grab tha mic while tha DJ groove it
Explicit lyrics is what I'm known to kick
Trying to make money, can make honeys blow on mah
dick

I go on a quick mission to find some kill
Ain't no big deal, just hop in tha Seville
Mah homey put me down quarter pound for a bill
Wake up in tha morning and I have weed still and I chill

With tha brothas sippin' coffee
Too old to be listenin' into what you say so hoe, get off
me
You're born in this world by ya self and you die alone
So as long as ya grown, ya might as well gone and just

Do what tha fuck you wanna do
Go ahead and say what tha fuck you wanna say
Do what tha fuck you wanna do
Go ahead and just say what tha fuck you wanna say

What did it all mean? Say what you want hoe, ya grown
You make decisions on your own
No one would suffer but you
So do what tha fuck you wanna do

Now everybody's got elders and you should respect
them
They been through similar shit but then again you can't
let them
Put they hands on ya life like a remote control
Have you travelin' down tha same bumpy tore up road

Now close friends and relatives they should be
constantly by ya side

And understand you gotta let ya conscience be your
guide
There'll finally come a time for ya self you must decide
'Cause you only get a ticket, might as well enjoy tha
ride and just

Do what tha fuck you wanna do
Go ahead and say what tha fuck you wanna say
Do what tha fuck you wanna do
Go ahead and say what tha fuck you wanna say

And there's a couple of fucked up man made rules that
we should follow
But you gotta realize, you just might not wake up
tomorrow
And tha dollar you earn is tha dolla you spend
Go get sumthin' for ya kids or buy a bottle of gin

Is it a sin? I don't know, what X and O's in this game
Tryin' to survive, tryin' to get high, tryin' to get by and
stay alive
So do it till ya satisfied, not just a lil bit
But wait until ya eighty and start sayin' what you coulda
did

But what did it all mean? Say what you want hoe, ya
grown
You make decisions on your own
No one would suffer but you
So do what tha fuck you wanna do

Do what tha fuck you wanna do
Say what tha fuck you wanna say
Do what tha fuck you wanna do
Say what tha fuck you wanna say

Do what tha fuck you wanna do
Say what tha fuck you wanna say
