[Intro]

It's gone be some shit you might not understand
But you might have to rewind this shit a few times
...I'm heavy... heavy... I know
Check it out

[Verse 1 - Scarface]

I know tomorrow ain't a promise
That's why I live one day at a time
So when it's my turn they'll be no crying
I'm aware that when my number called I'm punching
the clock
No need for screaming at me mama I'm outti
Plus I really wasn't happy here to start wit
Let that be told My own homeboy as robbin me
And that's three cold
I said three it's all intentional
Cause two don't count
When your own blood's bitter and your homeboys
bounce
Who the fuck is you gone trust when your roaddawgs is
scheming
And every orther corner you passing a different demon
And now the closet open and I'm remembering this
Your family's your backbone and your friends ain't shit
Now I'm believeing what Rhonda was saying back in the
days
When the homeboys left she the only one stayed
And for that very reason I'ma try and give her the world
I found heaven in the form of a girl
Everybody say it

[Chorus]

My Angel, my sunshine, bless the day that I found
heaven in the form of a girl
My best friend, my good time, bless the day that I
found heaven in the form of a girl

[Verse 2 - Scarface]

Listening to different scriptures, they teach on God
And if you ain't never met him, don't speak on God
I'm serious about religion, this just ain't no song

Hearing niggas make up scriptures and playing along
Probably saying I'm a hypocrite for judging these folks
But you can tell he ain't a christian by the way that he
spoke

I pray for everybody hoping that they hear that voice
The one that paralyzies you from head down boy
Where you aware of your surroundings yet you still
can't move

Water shooting out of your eyes when you hear this
dude

And the voice is much louder than the voice you
thought was the voice of the
Holy spirt

You'll change your life when you hear it
And the next morning you wake up and the world will
look lighter

The grass greener and the sun brighter
I know the feeling firsthand, I've witnessed the sights
When I allowed the lord to come in my life

And it was like heaven (echo)

But I'm a man and I ain't perfect

That's a poor excuse that ain't working

I ask him forgiveness for every sin I committ

Hoping he gone let me stay on his list

I'm trying to get to Heaven (repeat "heaven" & fade
out)

(silence into new beat)

America the beautiful don't be so cold

How you expecting our seeds gone grow

When you trap us in the ghetto and show love to the
other muthafuckas

While we right here starving at home

I'd cry if I thought me shedding a tear might help

Then again me shedding tears don't help

Wanna call up to the president just to see if he know
help

Let him know you up shit creek yo self

We all sinners

Facing a winter

Wit no socks and no shoes

In a position where we all gone lose

Instead a penentaries, we gone need more schools

Now what the fuck is we gone do

Sit around and let the world pass us by

Waiting on the message from the reverend

And he ain't but another man trying to get to Heaven
(repeat "heaven" & fade out)
